*Untagged*

I have been very busy since my last blog post. My New Zealand connection keeps me busy all the time maintaining the pink kit online shop and now we are working on 6 product targeted mini web shops. Besides I have been working on great new websites like [www.pokerinfo.ba](http://www.pokerinfo.ba) the first poker information portal in Bosnia and Herzegovina, [www.makma.ba](http://www.makma.ba) a car parts store, and after the holidays I will start on [www.art.ba](http://www.art.ba) which is one of the leading furniture stores over here.

Cheers

More news from Aaly Web Design.

I`m working on two new great websites. The first one is being made for Corporate Executive Cars based in London they are an chauffeur driven executive car hire for both corporate and private clients check the progress on <http://corpcars.net>

The second website is all about the game of poker and poker tactics, tips and tournaments. This is my first gaming website and I`m very excited to start the works. Check the progress on <http://pokerinfo.ba>

And at last but not least I can add one more finished web site to my portfolio and one more happy customer to the testimonials list. &quot; [K.A. Gear](#) &quot; is open to all visitors from today.

### [Welcome to Aaly Web Design](#)

Posted by [admin](#) in [news](#)

Hy there and welcome to the blog of aaly web design. This is my first entry and kind of a test to see how everything works so I will be short really. We will soon post news about ongoing projects and changes at aaly web design.

Take Care

Aaly
